

The pro version of the Qoob chip is intended for developers and/or advanced users. The biggest differences from the SX version is the USB upgrade feature and 16Mbit flash memory.

qoob PRO bundle includes:
1 x qoob PRO chip
1 x 3D sticker
1 x USB transfer cable
1 x Installation wire
1 x Flexible cable
1 x Cardboard box

qoob SX bundle includes:
1 x qoob SX chip
1 x 3D sticker
1 x Installation wire

Released after the pro version, the SX version is a stripped down version of the Qoob Pro chip, missing the USB upgrade feature and containing only 1Mbit of flash memory. The SX is equipped with a backup read-only BIOS preventing users or malicious code from "breaking" the chip.

DISCLAIMER

In many countries it is legal to install and use a Modchip in your personal game console. However, the copying of
games to legal in many (if not all) countries. Some countries laws don't allow you to use backups, even if you own
the original, you have to check your own country's laws, and respect them. If you have the right to make backups,
this means that you have bought the original license to use this game.

qoob or any other associated companies do not condone the illegal copying and/or distribution of computer software
for the game consoles or any other format. You must act accordingly to the laws of your country. Respect the
laws. Respect the gaming industry, and use our products accordingly in its original intent. The intended purpose of
our Modchip Products is to allow you to use your game console to play imports and backups of software that you
legally own or developed by yourself, for preservation, maintenance, and servicing purposes which is allowed by the
law.
